Muhamad Firdaus

has successfully completed the online, non-credit Professional Certificate

Preparing for Google Cloud Certification: Cloud DevOps Engineer

In this five-course accelerated Professional Certificate, learners explored techniques for monitoring, troubleshooting, and improving infrastructure and application performance in Google Cloud guided by principles of Site Reliability Engineering. Learners integrated prior technical skills into practical skills to prepare for the Google Cloud Professional DevOps Engineer certification.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
